PROFILE

Self-driven aspiring Computer Science engineer preparing to pursue B.Tech CSE, with practical learning across cybersecurity, artificial intelligence, data analytics, web technologies and digital marketing. I learn through structured coursework, hands-on experimentation and small builds, and document that growth through a live portfolio. Interested in early-career opportunities where curiosity, technical discipline and the ability to learn quickly matter.

SELECTED WORK

Interactive Personal Portfolio

Designed and deployed a responsive portfolio on GitHub Pages with dynamic skill interactions, credential viewing, themed pop-ups and a draggable skill universe.

HTML · CSS · JavaScript · GitHub Pages

Discord Voice Welcome Bot

Built an automation experiment that welcomes users when they join a Discord voice channel.

Automation · Bot Logic · Discord

Dynamic Birthday Experience

Created an interactive birthday-wish website focused on turning a simple greeting into a more personal web experience.

Web · Interaction · Front-end

Car Racing Game

Built a game application experiment to explore movement, gameplay logic and interactive development.

Game Logic · Interactive Development

LEARNING & CREDENTIALS

CYBERSECURITY

- Cisco — Introduction to Cybersecurity
- Deloitte — Cyber Job Simulation
- Tata / Forage — Cybersecurity Analyst Simulation (IAM)
- DCSC / TDO — Web Application Penetration Testing

AI & DIGITAL

- AI in Digital Marketing
- ChatGPT Masterclass / Generative AI learning
- Meta Advertising Fundamentals
- Instagram Marketing
- Yuva AI for All

DATA

- Deloitte — Data Analytics Job Simulation

WORKING KNOWLEDGE

Cybersecurity

Cybersecurity fundamentals, ethical hacking concepts, IAM, web application security

AI & Prompting

Prompt engineering, ChatGPT, AI productivity tools, AI-assisted workflows

Data & Programming

Data analytics foundations, Java foundations, problem-solving logic

Web

HTML, CSS, responsive interfaces, interactive JavaScript portfolio work

Digital Growth

Digital marketing foundations, Meta advertising, Instagram marketing

Systems

Advanced general computer knowledge, troubleshooting and hands-on experimentation

BEYOND THE SCREEN

Chess & mind games

Cube solving

Weight training

Running & sports
